Discrete Mathematics — Course Syllabus (Semester 3)

Credits: 4 (3 lecture + 1 tutorial). Prerequisite: none.

• Unit 1: Sets, relations and functions

• Unit 2: Propositional and predicate logic, proof techniques

• Unit 3: Combinatorics, recurrence relations

• Unit 4: Graph theory and trees

• Unit 5: Algebraic structures: groups, rings, lattices

Assessment: mid-semester 30%, assignments 20%, end-semester 50%.
